Giovanni Dal Lago

Co-founder VP and CEO at Officina Stellare
Vicenza

Riepilogo

Giovanni Dal Lago is the Co-founder, Vice President and CEO of Officina Stellare, an Italian company with a proven background in the design and manufacturing of optomechanical instrumentation for professional applications within the scientific research, aerospace and defence industries.

Giovanni has collaborated with leading national and international astronomy magazines. For more than four years, he acted as Deputy Editor of Coelum magazine and his photos were published in specialized magazines such as Sky&Telescope, Astronomy, CCD Astronomy, among others. In 1995, he was recognized by American magazine Astronomy and his imagery appeared on the cover of world-renowned astronomy photography's volumes "Fotografia Astronomica V" edition and "Atlante dell'Universo UTET". In 1998, the International Astronomical Union named the 1998 BA2 planet – discovered on January 17, 1998: (15950) - after him, "Dallago". In 2002, he co-founded "Le Stelle" periodical, a monthly astronomy magazine led by Margherita Hack e Corrado Lamberti, of which he became Editor in Chief for several years.

In 2013, one of his telescopes was selected by world-renowned designers Marc Newson and Jony Ive (Apple's Chief Design Officer) as one of the 40 most innovative products of industrial design. The telescope was sold at Sotheby's auction in New York and all profits were donated to RED, Bono Vox's nonprofit organization. Giovanni was recently recognized by Forbes Italia in their list of Top 100 Italian Managers and Entrepreneurs.
